GENDERLENS

SUPPORTING TRANS AND QUEER CHILDHOOD AND YOUTH

WHO WE ARE

GenderLens is an **Italian non-profit association** founded in 2018 as a parents' collective and established as an association in 2021.

We work to support **trans and queer children**, **adolescents**, **young people and their families**, and to promote a society where gender diversity is understood, respected and affirmed.

WORKING TOGETHER FOR CHANGE

Our work is grounded in **transfeminist** and **decolonial** perspectives and committed to **self-determination**, a **non pathologising** approach, collective action and challenging systems of oppression.

Our association brings together **families**, healthcare **professionals**, **researchers**, **students** and **young people** to transform the social and cultural contexts that shape trans and **queer childhood and youth**.

WHAT WE DO

SUPPORT

We offer **peer and professional support**, information and safe spaces for trans and queer children and young people, their families and caregivers.

EDUCATION & TRAINING

We provide **workshops**, **training** and **educational resources** for professionals, schools, institutions and communities to foster informed and affirming environments.

RESEARCH & ADVOCACY

We carry out **independent research** and develop resources to improve understanding of **gender diversity**, address discrimination and promote the rights and wellbeing of **trans and queer childhood and youth**.
